

Heart of the Community Award

is presented to

Hands Across Long Island (HALI)

Hands Across Long Island (HALI) is a grassroots organization created in 1988. The name represents the commitment to providing a helping and hopeful hand to our Long Island Community. HALI is a peer-run non-profit Recovery Center, Housing and Homeless Outreach agency managed and operated by and for psychiatric survivors. HALI provides multi service resources and support to people with limited resources. The organization encourages and supports people to realize their full potential while recognizing the importance of meeting people where they are in recovery. The commitment to upholding the Mission and Core Values to members, teammates, and the community has made HALI the greatest and largest peer-run agency in Long Island.

Laura Granelli of Jaspan Schlesinger LLP is passionate about the impact that HALI has on her community and she is fully supportive of their work.
