

## Heart of the Community Award

is presented to:

### The Maurer Foundation

The Maurer Foundation for Breast Health Education's mission is to save lives through breast health education that focuses on breast cancer prevention, early detection, risk reduction and healthy lifestyle choices.

Responding to the need in her own practice, breast surgeon Dr. Virginia Maurer first made breast health education programs available to her patients and their families. The success of these programs encouraged her to reach out to the general public, but particularly to adolescent women through high school breast health programs. Dr. Maurer believes that the choices we make early in life can affect our future breast health.

Jaspan Schlesinger and Partner Mindy Smolevitz have been consistent supporters of the Maurer Foundation and its commitment to be recognized as the leading source of current and accurate breast health information.
